## REPORT OF THE DEPUTY MINISTER.

The Honourable Sir George E. Foster, K.C.M.G., B.A., D.C.L., LL.D., M.P.,  
Minister of Trade and Commerce, Ottawa.

SIR :—I have the honour to submit herewith the Twenty-second Annual Report of the Department of Trade and Commerce of Canada for the Fiscal Year ended March 31, 1914.

During the Fiscal Year 1914 the total trade of Canada, as was anticipated in my last Annual Report, exceeded that of any previous fiscal year, the actual figures being \$1,129,744,725, showing an increase over the year 1913 of \$44,440,276. During the same period the total imports were valued at \$650,746,797, or \$41,285,595 less than in 1913, but \$91,426,253 greater than for the year 1912, while the exports show an increase in valuation of \$85,765,871 over the year 1913, and of \$163,680,678 over the year 1912. The total exports from Canada in 1914 were valued at \$478,997,928.

For several years, in presenting the Annual Report of this Department, it has been my privilege to make exceedingly optimistic observations as to the probable increase in the total trade for the ensuing year. In every case the increase each year has exceeded the most sanguine expectation. This year, however, in view of the European War and the unprecedented disturbance in trade throughout the world resulting therefrom, it is not possible to reach any conclusions as to future possible trade expansion, other than to observe that from the latest information available it would appear that the imports into Canada for the fiscal year 1915 will show a considerable decrease notwithstanding the very large increase in the imports of coin and bullion (see page ix) compared with 1914, but that the exports for 1915 will probably equal if not exceed the record figures of last year.

A statement will be found on page viii which demonstrates the position Canada occupies among the principal countries of the world regarding the percentage of increase in total trade during the decade 1904 to 1914, while on page ix will be found a statement showing the imports, exports and total trade of Canada for the months, seven months and twelve months ended October 31, 1912, 1913 and 1914, from which it will be observed that the total trade of Canada for the twelve months ending October 1914, shows a decrease, compared with 1913, but that the decrease is confined wholly to imports.

It might be of interest to point out for the information of the manufacturers and exporters of Canada that, as a result of the struggle on the continent of Europe, the export trade of Germany and Austria-Hungary which constituted almost 15 p. c. of the total export trade of the world, or 20 p. c. of the export trade of all except British Countries, has practically ceased.

The Department has issued considerable information from time to time in the Weekly Report relative to the German Export Trade, which has since been reprinted in a special volume known as "The German War and Its Relation to Canadian Trade," copies of which may be had free of charge on application to the Department.

I have the honour to be, Sir,  
Your obedient servant,

F. C. T. O'HARA,  
*Deputy Minister.*
